

NST				Product Specification Sheet											
SPICE AGENT & BROKER															
Product code				BP05MM											
Product name				Black Pepper Whole 580 - 5MM											
Country of Origin				Vietnam											
Bontanical name				Piper Nigrum L											
Description				Dried peppercorns, 85% pepper above 5MM screen											
Sensory Description				Dark brown black product with characteristic aroma and taste											
Physical Data															
Particle Size (micron)				580											
Bulkdensity (g/l)															
Light berries (% w/w max)															
Broken berries (% w/w max)															
Foreign matter				0.2%											
Chemical data															
Volatile oil on delivery (% w/w min)				12.5											
Piperine (% w/w min)															
Moisture content (% w/w max)															
Ash (% w/w max)															
AIA (% w/w max)															
Microbiological Data															
Total viable count (CFU/g)															
Salmonella (/50g)															
Escherichia Coli (CFU/g)															
Total coliforms (CFU/g)															
Enterobacteriaceae (CFU/g)															
Presumptive Bacillus ceres (CFU/g)															
Clostridium perfringens (CFU/g)															
Coagul.Perfringers (CFU/g)															
Listeria monocutogenes (/25g)															
Other															
Treatment				yes											
Free from GMO															
Metal detectors and rare earth magnets															
Shelf life (years)															
Packing size				25 kg net											
Labelling				as per customers specifications
